In the Specification:

Please insert the following section at the beginning of the specification before the heading "Technical Field:"

-- RELATED APPLICATIONS

This is a divisional of U.S. Patent Application Serial No. 09/153,432, filed September 14, 1998, which is now U.S. Patent No._____.--

Appendix

In the priority application, the appendix was objected to because 37 CFR 1.96 only permits computer program listings, and because the appendix exceeded the 10 page limit under MPEP 608.05. To avoid this objection in the subject application, the specification is amended to place in the body of the specification

any material that was formerly included in the appendix. No new matter is added, since this subject matter was submitted as part of the original application. A substitute specification is enclosed. Applicant respectfully requests that the specification be substituted for the original specification and that the above amendment for "Related Applications" be made after the substitution.

In the Claims:

Kindly cancel claims 1-24, 34-44, and 49 without prejudice.

REMARKS

Applicant respectfully requests entry of the above amendments prior to examination of the claims. The application now contains **claims 25-33 and 45-48**, which were restricted from the parent application. Applicant respectfully requests prompt issuance of the subject application.

Respectfully submitted,

Date: 10-19-2001
